EXPERIENCE

Professional Services Consultant Lead

2025-07 - PRESENT

FIS TECHNOLOGY

- Leading and delivering MT to MX message migration in line with ISO 20022 standards (e.g. MT202 → pacs.009), including analysis, mapping, validation, and client-side implementation.
- Acting as Lead Consultant for Professional Services (Quantum) implementations and upgrade projects.
- Owning end-to-end delivery: solution design, configuration, integrations, and go-live.
- Designing and overseeing custom solutions and integrations (SQL, PowerShell, Python, APIs, SFTP).
- Delivering client training and supporting post-go-live stabilization.
- Performing all responsibilities from previous role of the Professional Services Consultant Senior role / Technology Business Consultant II.

Professional Services Consultant Senior

2022-08 - 2025-06

FIS TECHNOLOGY

- Recognizing client business needs and skillfully matching them with appropriate system (Quantum) functionalities to meet those requirements.
- Implementing and managing Treasury Management System upgrade projects in client environments, including overseeing schedules and managing client expectations.
- Developing custom scripts/tools using MSSQL, PowerShell, Python, VBA, and JSON to meet and exceed client expectations.
- Providing training to clients on newly implemented functionalities.
- Customizing generated and received payment messages (MT/MX), such as MT202 and CAMT.053.
- Integrating the Quantum system with external platforms using API and SFTP.

Implementation Manager

2021-11 - 2022-07

ASTRAFOX SP. Z O.O.

- Identifying customer business needs.
- Managing the implementation team by assigning tasks, setting priorities, and supervising the completion of duties.
- Coordinating the AMODIT software implementation process using both SCRUM and Waterfall methodologies.
- Preparing implementation schedules and cost estimations.
- Defining document workflow processes on the AMODIT platform.
- Preparing integrations with ERP, HR, and accounting systems using AMODIT (SOAP API), temporary tables (MySQL, MSSQL, Oracle), and REST API.
- Programming business rules using AMODIT Script and MS/MySQL.
- Delivering presentations to prospective clients.
- Providing training at both Administrator and User levels.

Implementation Consultant / PM

2020-04 - 2021-10

ASTRAFOX SP. Z O.O.

- Coordinating implementations of the AMODIT system (ganttpro, JIRA, Azure)
- Preparing implementation schedules/valuations
- Implementation AMODIT system (amodit.com)
- Analyzing customer business needs
- Defining document workflow processes on the AMODIT platform
- Preparing Integration with ERP/HR/Accounting/ systems using Amodit API or temporary tables

- Delivering Administrator and User level training

■ Participation in Java Developer Web Course (280h, In-Person)

2019-10 - 2021-07

CODERS LAB

Technologies: Java, Spring, MySQL, Hibernate, JavaScript, jQuery

- Basics of Java programming.
- Object-Oriented Programming (OOP) in Java.
- SQL fundamentals.
- Collections, Regular Expressions, and Maven.
- Servlets and JSP.
- JavaScript and jQuery.
- Generic types, Streams, Lambdas, and design patterns.
- Introduction to Spring framework.
- Spring and Hibernate integration.
- JUnit and Test-Driven Development (TDD).
- Workshops: independent project development.

■ CAD/PDM Technical Specialist

2018-04 - 2020-04

SOLIDEXPERT

- Implementation SOLIDWORKS Manage Software.
- Preparing PDM System for ERP Integration
- Providing SOLIDWORKS PDM presentations to prospective or existing clients
- Delivering CAD / PDM Administrator and User level training
- Delivering SOLIDWORKS PDM implementation and consulting services including software installation and custom configuration, upgrades
- Preparing technical articles
- General customer care and support, on-site visits

■ Design Engineer

2017-09 - 2018-03

NG ENGINEERING SP. Z O.O. (FOR FAURECIA AUTOMOTIVE POLSKA S.A.)

- Designing parts of seat frames, modification of existing models and solutions
- Data migration from CATIA v5 to Siemens NX
- Designing metal and plastic elements (CATIA v5 and Siemens NX)
- Creating technical documentation
- Preparing data in PDM software (ENOVIA/Magellan)

■ Design Engineer

2016-12 - 2017-09

TUCANA ENGINEERING WARSAW SP. Z O.O.

- Developing 3D, 2D documentation of technical solutions for automotive industry and aviation.
- Searching for and contact with foreign and domestic suppliers.
- Developing conceptual product documentation.

■ Junior Design Engineer

2015-08 - 2016-11

SOLARIS BUS & COACH S.A.

- Designing and adaptations of technical solutions required by the customer in the area of city bus ceiling
- Developing and adapting solutions (3D, 2D) in the area of city bus windows, glass
- Developing and managing a list of BOM(Bill of Materials) in designated areas of the product
- Contact and technical consultations with domestic and foreign suppliers
- Analysing and verifying offers on parts and components
- Designing prototype parts and assemblies
- Supervising prototype constructions
- Preparing technical documentation

■ Intern in PLM Department

2014-04 - 2015-07

SOLARIS BUS & COACH S.A

- CAD/PLM Support (Siemens NX, Teamcenter)
- Application testing, preparing instructions
- Developing and management database of standard elements
- Participation in data migration (Microsoft Dynamics AX, SAP, Teamcenter).
- Optimization CAD data

■ Trainee in PLM Department

2013-08 - 2013-09

SOLARIS BUS & COACH S.A

- Support during data migration (Microsoft Dynamics AX, Siemens Teamcenter, SAP)
- Applications testing

EDUCATION

■ POZNAN UNIVERSITY OF TECHNOLOGY, MECHANICAL ENGINEERING, VIRTUAL DESIGN ENGINEERING, SECOND CYCLE Master of Science Engineer	2014-03 - 2015-06
■ POZNAN UNIVERSITY OF TECHNOLOGY, MECHANICAL ENGINEERING, VIRTUAL DESIGN ENGINEERING, FIRST CYCLE Bachelor of Science Engineer	2010-10 - 2014-02

SKILLS

■ FIS TREASURY AND RISK MANAGER - QUANTUM EDITION (FORMERLY QUANTUM)	★★★★★
■ API Integration	★★★★★
■ SQL	★★★★★
■ JIRA	★★★★★
■ Project management	★★★★★
■ ITIL	★★★★★
■ Planning and execution	★★★★★
